

**Chionochloa**  
**Simplified standard protocol: SSP/CNC/1**

Examination office:	Naktuinbouw	
Reference of the protocol:	SSP/CNC/1	
Date of preparation of the protocol:	14/07/2020	
Date of entry into force of the protocol:	14/07/2020	
Botanical taxon:	Chionochloa flavicans Zotov	
Common Name (when known):	Chionochloa flavicans	
Way of propagation of the plants to be examined:	Self or cross pollinated seed propagated <input type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify	
List of grouping characteristics:	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial:	Vegetative:8	Seed: -
Minimum number of plants observed by measuring or counting:	Vegetative:1	Seed: -
Give description of when observations should take place:	Observation on the panicle should take place: at full flowering Observation on the leaf should take place: at full flowering Other observations should take place: at full flowering	

<p>Uniformity:</p> <ul style="list-style-type: none"> <li>- For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1% and an acceptance probability of at least 95% should be applied. In the case of a sample size of 10 plants, 1 off-types are allowed.</li> <li>- For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known.</li> </ul>	
Table of characteristics:	Present <input checked="" type="checkbox"/> Not available <input type="checkbox"/>
Literature: (when present, please annex to this document)	Present <input checked="" type="checkbox"/> Absent <input type="checkbox"/>

**Table of characteristics: Chionochloa**

1. plant: growth habit	
2. Plant: height	
3. Plant: height of foliage	
4. Plant: width	
5. Plant: position of panicle compared to foliage	
6. Culm: length	
7. Culm: diameter	
8. Culm: color	RHS Colour Chart (indicate reference number)
9. Leaf blade: length	
10. Leaf blade: width	
11. Leaf blade: shape	
12. Leaf blade: profile in cross section	
13. Leaf blade: variegation	
14. Leaf blade: main color of upper side	RHS Colour Chart (indicate reference number)
15. Leaf blade: secondary color of upper side	RHS Colour Chart (indicate reference number)
16. Leaf blade: distribution of secondary color of upper side	
17. Leaf blade: main color of lower side	
18. Panicle: attitude	
19. Panicle: length	
20. Panicle: width	
21. Panicle: length of primary branches	
22. Panicle: intensity of green color in spring	
23. Panicle: intensity of brown color in fall	
24. Spikelet: shape
