

Hemerocallis
Simplified standard protocol: SSP/LLD/2

Examination office:	Naktuinbouw	
Reference of the protocol:	SSP/LLD/2	
Date of preparation of the protocol:	31/08/2022	
Date of entry into force of the protocol:	31/08/2022	
Botanical taxon:	Hemerocallis L.	
Common Name (when known):	Day-lily	
Way of propagation of the plants to be examined:	Self or cross pollinated seed propagated <input type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify	
List of grouping characteristics:	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial:	Vegetative:20	Seed: -
Minimum number of plants observed by measuring or counting:	Vegetative:1	Seed: -
Give description of when observations should take place:	Observation on the flower should take place: at full flowering Observation on the leaf should take place: at full flowering Other observations should take place: at full flowering	

<p>Uniformity:</p> <ul style="list-style-type: none"> - For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1% and an acceptance probability of at least 95% should be applied. In the case of a sample size of 24 plants, 1 off-types are allowed. - For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known. 	
Table of characteristics:	<p>Present <input checked="" type="checkbox"/></p> <p>Not available <input type="checkbox"/></p>
Literature: (when present, please annex to this document)	<p>Present <input checked="" type="checkbox"/></p> <p>Absent <input type="checkbox"/></p>

Table of characteristics:

1. Plant: growth habit	
2. Plant: height	
3. Plant: position of flowers compared to foliage	
4. Leaf: length	
5. Leaf: width	
6. Leaf: variegation	
7. Leaf: color	RHS Colour Chart (indicate reference number)
8. Leaf: shape in cross section	
9. Scape: height	
10. Scape: thickness at basal quarter	
11. Scape: color	
12. Inflorescence: type	
13. Inflorescence: number of flowers	
14. Inflorescence: length	
15. Flower: type	
16. Flower: length (including style)	
17. Flower: diameter	
18. Corolla tube: length	
19. Corolla tube: width	
20. Corolla tube: color	RHS Colour Chart (indicate reference number)
21. Outer tepal: length	
22. Outer tepal: width	
23. Outer tepal: shape	
24. Outer tepal: shape of apex	
25. Outer tepal: main color of upper side	RHS Colour Chart (indicate reference number)
26. Outer tepal: color of base	RHS Colour Chart (indicate reference number)
27. Outer tepal: color of margin	RHS Colour Chart (indicate reference number)
28. Outer tepal: color of midrib	RHS Colour Chart (indicate reference number)
29. Outer tepal: main color of lower side	RHS Colour Chart (indicate reference number)
30. Outer tepal: curvature	
31. Outer tepal: undulation of margin	
32. Inner tepal: length	
33. Inner tepal: width	
34. Inner tepal: shape	
35. Inner tepal: shape of apex	
36. Inner tepal: main color of upper side	RHS Colour Chart (indicate reference number)
37. Inner tepal: color of base	RHS Colour Chart (indicate reference number)
38. Inner tepal: color of margin	RHS Colour Chart (indicate reference number)
39. Inner tepal: color of midrib	RHS Colour Chart (indicate reference number)
40. Inner tepal: main color of lower side	RHS Colour Chart (indicate reference number)
41. Inner tepal: curvature	
42. Inner tepal: undulation of margin	
43. Stamen: length	
44. Filament: color	
45. Anther: color	
46. Pollen: color	
47. Pistil: length	
48. Style: color	
49. Duration of flowering
