

Rhaphiolepis
Simplified standard protocol: SSP/RHA/1.rev

Examination office	Naktuinbouw	
Reference of the protocol	SSP/RHA/1.rev	
Date of preparation of the protocol	11/10/2021	
Date of entry into force of the protocol	11/10/2021	
Botanical taxon:	Rhaphiolepis indica (L.) Lindl. ex Ker Gawl.	
Common Name (when known):	Indian Hawthorn	
Way of propagation of the plants to be examined	Self or cross pollinated seed propagated <input type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify:	
List of grouping characteristics	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial	Vegetative:8	Seed: -
Minimum number of plants observed by measuring or counting:	Vegetative:1	Seed: -
Give description of when observations should take place	Observation on the flower should take place: at full flowering Observation on the leaf should take place: at full flowering Other observations should take place: at full flowering	

<p>Uniformity:</p> <ul style="list-style-type: none"> - For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1 % and an acceptance probability of at least 95% should be applied. In the case of a sample size of 10 plants, 1 off-types are allowed. - For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known. 	
Table of characteristics	Present <input checked="" type="checkbox"/> Not available <input type="checkbox"/>
Literature (when present, please annex to this document)	Present <input checked="" type="checkbox"/> Absent <input type="checkbox"/>

Table of characteristics: Rhapsiolepis

1. Plant: attitude
2. Plant: height
3. Plant: width
4. Leaf: length
5. Leaf: width
6. Leaf: colour of upper side RHS Colour Chart (indicate reference number)
7. Leaf: colour of lower side
8. Leaf: anthocyanin colouration
9. Leaf: variegation
10. Leaf: angle in relation to branch
11. Leaf: shape
12. Leaf: shape of apex
13. Leaf: margin
14. Inflorescence: length
15. Inflorescence: width
16. Pedicel: colour
17. Pedicel: anthocyanin colouration
18. Pedicel: pubescence
19. Calyx: colour
20. Calyx: anthocyanin colouration
21. Calyx: pubescence
22. Bud: colour
23. Flower head: diameter
24. Petal: length
25. Petal: width
26. Petal: shape
27. Petal: shape apex
28. Petal: colour RHS Colour Chart (indicate reference number)
29. Filament: length
30. Filament: colour
31. Anther: colour
32. Pollen: colour
33. Style: length
34. Style: colour
