

Botanical taxon: Common Name (if known): Date of preparation of SSP: Date of revision of SSP: SSP revised by:	Silene asterias Griseb. X Silene noctiflora L. Silene asterias Griseb. X Silene noctiflora L. 07-11-2017 01-01-2020 W.A. Wietsma
Sample to be examined: Number of foreseen growing cycles	VEGETATIVE 1 year
Closing date for applications: Submission date/period: Plant quantity: Special conditions sample:	1/12 1/4 - 30/4 24 young plants, able to show all their characteristics in the first year of examination None
Test station address: Name: E-mail:	Naktuinbouw, Sotaweg 22, 2371 AA, Roelofarendsveen Team Support Variety Testing Department teamsupport@rasraad.nl
List of grouping characteristics: Minimum number of plants in trial: Minimum number of plants observed by measuring or counting:	NO Vegetative: 20 d Vegetative: 1
Give description of when observatio At full flowering Give description of when/where obs At full flowering	ns on the flower should take place: ervations on the leaf should take place:
Test will take place:	GREENHOUSE
Uniformity: A population standard of 1% with an acceptance probability of at least 95%. Number of Off-types allowed: one off-type allowed in a sample size of 24	
Table of characteristics: (if present, please annex the table o	PRESENT (see annex) f characteristics and explanations)

Literature: PRESENT (see annex) (if present, please annex to this document)

## Table of characteristics: Silene
