

**Oxypetalum**  
**Simplified standard protocol: SSP/OPT/2**

Examination office:	Naktuinbouw	
Reference of the protocol:	SSP/OPT/2	
Date of preparation of the protocol:	29/12/2022	
Date of entry into force of the protocol:	31/03/2022	
Botanical taxon:	Oxypetalum coeruleum (D. Don) Decne.	
Common Name (when known):	Oxypetalum	
Way of propagation of the plants to be examined:	Self or cross pollinated seed propagated <input type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify	
List of grouping characteristics:	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial:	Vegetative:20	Seed: -
Minimum number of plants observed by measuring or counting:	Vegetative:1	Seed: -
Give description of when observations should take place:	Observation on the flower should take place: at full flowering Observation on the leaf should take place: on fully grown leaves Other observations should take place: at full flowering	

<p>Uniformity:</p> <ul style="list-style-type: none"> <li>- For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1% and an acceptance probability of at least 95% should be applied. In the case of a sample size of 20 plants, 1 off-type is allowed.</li> <li>- For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known.</li> </ul>	
Table of characteristics:	Present <input checked="" type="checkbox"/> Not available <input type="checkbox"/>
Literature: (when present, please annex to this document)	Present <input checked="" type="checkbox"/> Absent <input type="checkbox"/>

**Table of characteristics: Oxypetalum**

1. Plant: height	
2. Stem: tickness at base	
3. Stem: density of pubescence	
4. Stem: length of internode	
5. Petiole: length	
6. Petiole: colour	
7. Leaf blade: length	
8. Leaf blade: width	
9. Leaf blade: intensity of green colour on upper side	
10. Leaf blade: density of pubescence	
11. Petiole: length	
12. Flower: type	
13. Flower: attitude of corolla lobes	
14. Flower: diameter	
15. Corolla lobe: length	
16. Corolla lobe: width	
17. Corolla lobe: shape	
18. Corolla lobe: main colour upper side	RHS Colour Chart (indicate reference number)
19. Corolla lobe: main colour lower side	RHS Colour Chart (indicate reference number)
20. Corona: length	
21. Corona: colour of centre zone	RHS Colour Chart (indicate reference number)
22. Corona: colour of margin	RHS Colour Chart (indicate reference number)
